

Moose Creek Estates

News Letter - October 2008

Premium Real Estate - Excellent Investment in Good and Turbulent Markets

The stock market took a major downward correction in 2001-2002. Many people lost much of their nest egg in the correction. Fortunately, the author moved much of his money into premium recreational real estate. He protected / increased his overall net worth as the increases in real estate value more than offset the value of losses in the market.

Moose Creek Estates (MCE) property has proven to be a good investment. MCE lots purchased five years ago are worth more than double the purchase amount. A water well has been drilled on lot 22 with two more to begin drilling next month for new home starts. Lot prices will be significantly increased upon completion of more homes.

Seller financing is available for Moose Creek Estates lots.

Lot 6 Model Home Converts to Solar Power

We have installed a 5.6 kW solar power system for the model home on lot 6. In addition to being

environmentally responsible, the solar power implementation makes the home energy self-sufficient. We are all about energy efficient, sustainable construction at MCE.

Model Home on Lot 6 - For Sale

Summer & Fall Adventures

Property owners and visitors enjoyed numerous adventures as they explored the mountains, lakes and rivers around the Salmon, ID area.

Visitors Charley & Pamela at Miner Lake

We have had a fine summer making new friends and entertaining visitors
